**Who Needs to Attend?**
MSHA Training is required for all employees and independent contractors working in or around mining operations that are or may:
- Engaged in mining operations, including developing, drilling, blasting, extracting, milling, crushing, screening or sizing materials, or hauling materials within the mine;
- A maintenance or service worker, working on mining equipment for frequent (a pattern of recurring exposure) or extended periods (more than five consecutive work days); or
- A construction worker who is exposed to hazards of mining operations for frequent (a pattern of recurring exposure) or extended periods (more than five consecutive work days).

**Added Value Choosing NCTC**
- Cost Free On-Site Visits
- Year-Round MSHA Compliance Calls and Guidance
- Cost-Free Training Plan Development and Review
- Required Paperwork & Completing Forms Assistance
- Noise level surveying
